

## ROUNABOUT SIGNS

**Slow down**, you are approaching a roundabout.

Directional guide signs are provided in advance of the roundabout to show exits and where they take you.

**Yield** to all traffic in the roundabout; merge when a gap is available.

**Yield to pedestrians** at the crosswalk.

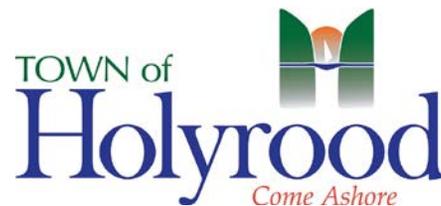

Exit signs are located at the exit to indicate where the exit takes you.

## SOME QUICK TIPS

- Remember to look and plan ahead!
- Slow down, when you are approaching a roundabout!
- Yield to pedestrians, they have the right-of-way!
- Look to your left, find a gap and continue into the roundabout!

**HOW TO DRIVE,  
WALK AND BIKE IN  
A SINGLE-LANE  
ROUNABOUT**

## WHAT IS A ROUNDABOUT?

A roundabout is a circular intersection where traffic flows counter-clockwise around a center island.

### BENEFITS OF A ROUNDABOUT:

- Improved traffic flows
- Less vehicle delay and pollution
- Reduced motorist and pedestrian injury collisions and fatalities, and
- Increased pedestrian safety

### HOW TO DRIVE IN A ROUNDABOUT

- **Slow down** when approaching a roundabout.
- **Yield to pedestrians** at the crosswalk, they have the right-of-way.
- When entering a roundabout, **yield to the vehicles already in the roundabout.**
- Enter into the circulating roadway when there is a safe gap.
- Continue through the roundabout until you reach your exit.
- When exiting the roundabout, signal and **yield to pedestrians.**

### TIPS FOR PEDESTRIANS

- Step up to the curb by the designated crosswalk and extend your arm.
- Wait for the drivers to completely stop before stepping onto the street.
- Look and listen for a safe gap in the traffic.
- Cross one approach at a time, using the splitter island to check for approaching traffic.
- Cross only at the designated crosswalks; never cross to the central island.

### TIPS FOR CYCLISTS

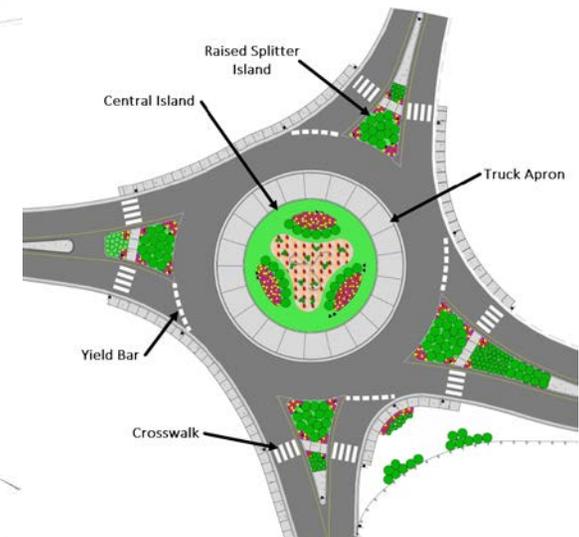

Cyclists have two options when approaching a roundabout:

*For beginner cyclists:*

- Dismount and walk your bicycle to the pedestrian crosswalk.
- Follow the Tips for Pedestrians.

*For experienced cyclists:*

- Ride as if you were driving a car.
- Merge into the travel lane before the shoulder ends and ride in the middle of the lane.
- Use hand signals and signal as you were a motorist

### WHEN AN EMERGENCY VEHICLE APPROACHES

- If you have not entered the roundabout, pull over to the right, if possible, and allow the emergency vehicle to pass you.
- If you are in the roundabout, proceed to your exit and continue pass the splitter island and then pull over to the right.
- Never stop inside the roundabout.

### TIPS FOR DRIVERS IN LARGE VEHICLES

- When this sign is provided, trucks should circumnavigate the roundabout to complete the right-turn maneuver.
