COR CERTIFICATION

to be produced before the award.

| |

The NLSCA administers the COR program to help ensure OHS standardization for the province’s construction companies. Until recently there have been three categories within the NLCSA’s COR program. A company could have received a Letter of Good Standing stating *In Process, Audit Pending, or Certificate of Recognition.*

Tenders for contracts that would typically have a COR requirement must use the following language:

The Contractor shall within 14 days of award of the contract, and prior to commencement of the work, provide a Letter of Good Standing stating Certificate of Recognition (COR) certified from the Newfoundland and Labrador Construction Safety Association (NLCSA).”

Instruction to Bidders
